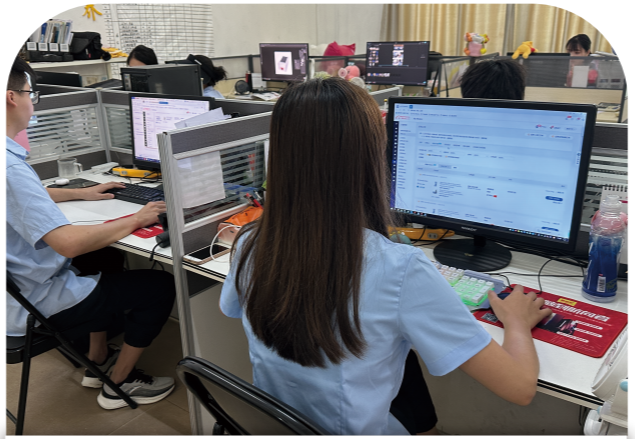
Core Business Scope

Our main business includes the import and export of global commodities, covering procurement, logistics, customs declaration, etc. We are committed to providing customers with high-quality goods, excellent services and efficient solutions to meet the diverse needs of customers.



Company Advantage

Strong R&D and innovation ability: The company has a professional R&D team, which constantly introduces catering equipment with the characteristics of high efficiency, energy saving and intelligent operation to meet the diversified demands of the market.

Competitive Advantages

Compared to our competitors, we have a wide supply chain network and rich international trade expertise in the global commodity trading field. Through efficient business processes and market insights, we create sustainable business opportunities for our customers.

INDUSTRY STANDARD SETTER

Our company attaches great importance to product quality and safety management, and has successfully obtained ISO9001 quality management system certification to ensure that product quality meets international standards. In addition, our products have been awarded CE certification, CCC certification and many other authoritative certificates. These certificates are not only authoritative recognition of our product quality, but also important qualifications for us to enter the medium and high-end market.
